 South Jakarta City
 Jakarta 12750

Muhammad Rauf Pratama

Front-End Developer

HERE'S MY STORY:

I graduated from a private university, with an informatics engineering study program (Bachelor / S1). I am a hard worker, responsible, honest, and responsive. I have good communication skills, easy to adapt to new things and am able to work in teams and individually. I am an enthusiastic person about the current and latest technologies. I understand the concept of OOP programming, as well as several programming languages such as C #, PHP, Java, and Javascript.
